

We invite you to take part of the
2019 Electric Power Quality and Supply Reliability Conference (PQ2019)
and
2019 Symposium on Electrical Engineering and Mechatronics (SEEM2019)

The PQ2019 and SEEM2019 will be located in Kärdla, a picturesque island scene of the Baltic sea coast and nature. We hope to see you in June on Hiiumaa, the second biggest island of Estonia.

Prospective authors are invited to submit full papers before March 4th, 2019. Detailed paper and format guidelines can be found on the PQ2019 and SEEM2019 website.

<http://www.ttu.ee/pq2019>

Papers accepted and presented during the PQ2019 and SEEM2019 will be indexed in Scopus and included in the IEEE Xplore database.

Topics of 2019 Electric Power Quality and Supply Reliability Conference

- **Electric power quality**, voltage level, unbalance and harmonics
- **Voltage dips and impulses**, transients and overvoltages
- **Power quality metering and monitoring**, remote systems
- **Electric power supply reliability**, outages and interruptions
- **Fault detection and localization**, self-healing and fault tolerance
- **Electric components condition monitoring**

Topics of 2019 Symposium on Electrical Engineering and Mechatronics

- **Electrical machines**, diagnostics and design
- **Distributed generation**, energy storage and off-grid solutions
- **Power supply management and planning**
- **Power electronic converters**, topologies and control
- **Measurement systems**, data processing and analytics
- **Mechatronics and automation**, industrial systems
