

AGRICULTURAL

Work Placements, Internships and Training in Ireland

Agriculture is Ireland's largest business.

Ireland's Agricultural Heritage and strong family ethic makes for unique internships for those planning a career in agriculture and farming. Our **Agricultural Internship program** offers opportunity for growth in a safe, positive environment. We will work in partnership to achieve your program objectives.

Our Program has 3 Main Objectives:

1. Language Skills: Our goal is to help international candidates to improve their English language knowledge and work related language skills; this will help them in their subsequent studies and professional life.

2. Professional Skills: The Candidate will have the opportunity to learn more about Irish agriculture and farming. They will acquire valuable work experience in the chosen career and gain confidence in their ability to function in an English-speaking environment. This will enhance the candidate's career prospects by obtaining certificates that describe his/her English ability and his/her work experience. They will be in a significantly better position to find a job or improve promotion prospects in an increasingly competitive market.

3. Cultural Knowledge: The Candidate will get to know Irish people both at work and socially. The participants of these programs will have the possibility to learn more about the Irish culture and the Irish way of life, sharing the every-day life and customs of an Irish farmer's family. We want our candidates go home with a comprehensive understanding of Irish farming and our agricultural way of life

- We have decade long relationships with over two hundred established Irish farms and Agribusiness here in Ireland in wide ranging areas.
- We are looking for candidates that are positive, hardworking, outgoing, and ready to learn, our programs are not for the shy or introverted candidates as they will have difficulty adapting to the Irish culture.
- We work with individuals. We also work with Agricultural organizations, universities, and schools to develop and then provide tailor made programs for groups of students.
- A candidate must have some prior agricultural experience or agricultural educational training to participate in our programs.
- Our attention to detail means that a candidate is matched to carefully vetted host farm families.

Experience Ireland in a way you never thought possible
