Short description of the company	Miquel Angel Lacomba Architects, has been created since the year 1997, with the collaborative design process as an essential focus point. From the year 2003, we had the opportunity to welcome students from many countries, belonging to the program of interchanges: LEONARDO DA VINCI or ERASMUS scholarships. In the studio we speak English perfectly, some clients aren't even from Spain, which increases the interest to work with foreign students.
