

## Laboratory Project / Internship at ECAM Strasbourg

At ECAM Strasbourg-Europe, we propose our partners a laboratory Project or Internship for their students.

In order to be accepted, students must be appointed by the International Relations Department. The subject, as well as the duration and the corresponding ECTS credits must be agreed before the departure.

The Learning agreement can be signed as an Internship (from 1 to 2 months) or as a Project (from 2 months to 4 months).

ECAM Strasbourg cannot allocate any grant/remuneration for students during their stay.

The internship/project can be coupled with classes, if requested.

### At a glance:

**Period:** From September to June;

**Duration:** up to 4 months;

**Language of instruction:** English or French;

**Evaluation:** to be defined;

**Credits:** to be defined;
